

RACKMAN SPARE PARTS TRAYS

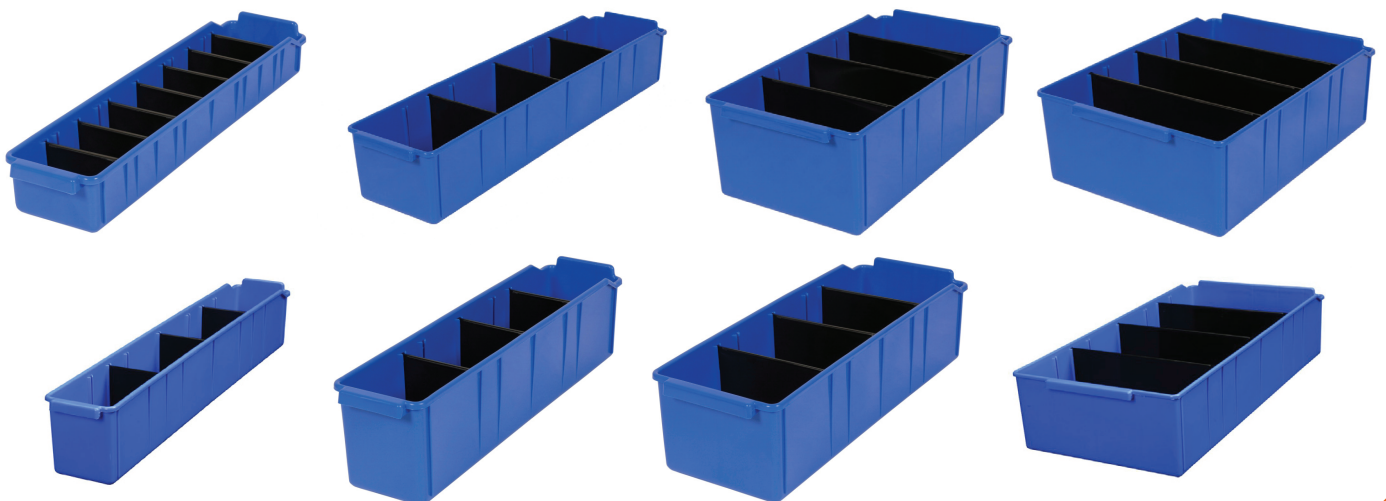

Ideal for storing and picking small to medium products at low to high volumes, Rackman Australia's Spare Parts Trays are a perfect storage solution for warehouses, workshops and other storage spaces.

Specifically designed to suit Australian RUT shelving sizes, these parts trays enable each shelf level to be completely filled with no unused gaps in between and features:

- ✘ All parts trays coming with standard dividers with the option of purchasing additional to suit your storage requirements
- ✘ A range of sizes to accommodate for various parts dimensions and quantities
- ✘ A choice of internal dividers that enables effective storage of a wide range of components
- ✘ A large area at the front for adding colour-coded or stock labels
