

SAFETYLOCK STANDARD FLUSH TOP WORKBENCH

You'll be able to build your dream workbench in no time with SafetyLock's Standard Flush Top Workbench.

These workbenches are suitable for packing, dispatch and assembly which makes them a reliable worktop for any warehouse, workshop or container's needs.

Sturdy and easy to assemble, it features:

- 1 or 2 tiered units available
- Made of quality SafetyLock racking and components
- Offer extra or optional board supports if required
- Flush top beams so the board sits over the metal framework with no exposed metal edges
