

FLOOR ACCESSORIES & GATES

Protect your business and its staff with Rackman Australia's Floor Accessories and Gates.

With a wide range of gates, bollards, handrails and kickrails available to compliment all structural and pallet racking floors, it will keep people working at height and on the ground safe from forklift hazards.

Not only will our floor accessories improve the lifespan of your storage system, prevent costly repairs and facilitate safe operational practices, their installation process is simple, fast and effective.

PRODUCT RANGE

GATES

- ✘ Safety Gates: They provide the highest level of protection with a loading area on the edge of the floor allowing pallets to be moved on an off whilst always maintaining a safety barrier to stop people from falling
- ✘ Lockable Sliding Access Gates: They are a simple yet efficient solution for providing a loading point on to your floor

KICKRAILS

- ✘ Galvanised kickrail available
- ✘ Fits under both handrail and barrier systems
- ✘ Designed to protect systems from any impacts or collisions that may occur low to the ground

HANDRAILS

- ✘ Choose between galvanised and specialised yellow pipe barriers
- ✘ Can be custom built to suit any ground or floor application to create a barrier between mobile plant, equipment, and people
- ✘ Swing gates and other options available

BOLLARDS

- ✘ Primarily used to visually guide traffic and mark boundaries to physically block vehicle intrusion, protect people and property
- ✘ Ideal for protecting high impact or risk areas commonly on corners or the ends of handrail systems
