

SAFETYLOCK MOBILE FLUSH TOP WORKSTATION

You'll be able to build your dream workbench in no time with SafetyLock's Mobile Flush Top Workstation.

These workbenches are suitable as a workstation or for packing, dispatch and assembly which makes them a reliable worktop for any warehouse, workshop or container's needs.

Sturdy and easy to assemble, it features:

- Solid welded end frames with no assembly required
- Made of quality SafetyLock racking/components and has 360 ° lockable castors load rated at 120kg per wheel
- Recessed bottom shelf allows sitting or standing in comfort
- Flush top beams so the board sits over the metal framework with no exposed metal edges
